## What is this product?

**Type:** This investment fund is a sub-Fund of Legal & General UCITS ETF Plc (the "**Company**"), an umbrella investment company with variable capital and segregated liability between Funds. The Fund is authorised in Ireland and regulated by the Central Bank of Ireland.

**Term:** There is no fixed maturity date.

**Objectives:** The Fund is a passively managed exchange traded Fund that aims to track the performance of the FTSE Developed Europe ex UK All Cap ex CW ex TC ex REITS Dividend Growth with Quality Net Tax Index (the "**Index**"), subject to the deduction of the ongoing charges and other costs associated with operating the Fund.

The Fund promotes a range of environmental and social characteristics which are met by tracking the Index.

Shares in this Share Class (the "**Shares**") are denominated in EUR and can be bought and sold on stock exchanges by ordinary investors using an intermediary (e.g. a stockbroker). In normal circumstances, only Authorised Participants may buy and sell Shares directly with the Company. Authorised Participants may redeem their Shares on demand in accordance with the "Dealing Timetable" published on <http://www.lgim.com>.

The index is designed to provide exposure to equity securities of companies in developed markets in the European Union, excluding the United Kingdom, that have historically had positive dividend growth trend, relatively higher forward estimated dividend yields and better quality characteristics.

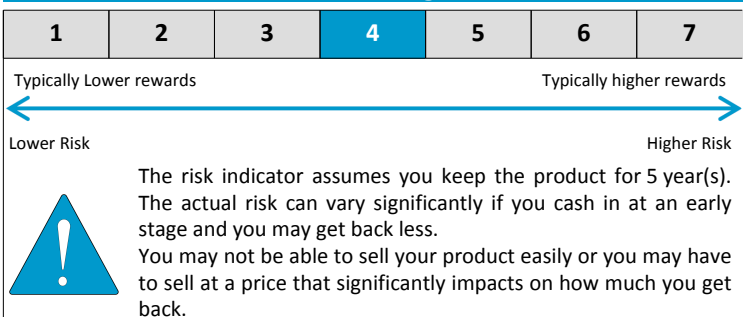

The Fund will primarily invest in a representative sample of the equity securities contained in the Index whose risk and performance characteristics closely resemble that of the Index as a whole. The fund may also invest in (1) companies that are not constituents of the Index that have similar risk and performance characteristics to the companies contained in the Index and (2) financial derivative instruments ("FDIs") (i.e. investments the prices of which are based on the companies contained in the Index and/or such other companies). Adjustments to the Fund's portfolio, including as a result of a reconstitution of the Index, will incur transaction costs.

This Share Class aims to pay quarterly dividends out of the Fund's net income by electronic transfer.

The depositary of the Fund is the Bank of New York Mellon SA/NV, Dublin Branch. Further information about the Fund and the share class can be obtained from the Company's prospectus and the annual and semi-annual reports, which are available, in addition to the latest prices for the share class and details of any other share classes, free of charge at: [www.lgim.com](http://www.lgim.com).

**Intended retail investor:** The Fund is designed for investors looking for a combination of growth and income in an investment which can form part of their existing savings portfolio. Although investors can take their money out at any time, the Fund may not be appropriate for those who plan to withdraw their money within five years. The Fund is not designed for investors who cannot afford more than a minimal loss of their investment.

## What is the risk and what could I get in return?

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

The value of the Fund may be affected by risks not in the SRI, including failure of a counterparty, custodian, issuer or index provider and derivative use.

This product does not include any protection from future market performance so you could lose some or all of your investment.

**Be aware of currency risk.** You may receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The Fund is not covered by an investor compensation scheme.

## Performance scenarios

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product with input from benchmark(s)/proxy over the last 10 years. Markets could develop very differently in the future.

**Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.**

Investment EUR 10,000.00			
Scenarios		1 year	5 years (Recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress scenario*	What you might get back after costs	4,410 EUR	3,690 EUR
	Average return each year	-55.9%	-18.1%
Unfavourable scenario**	What you might get back after costs	8,380 EUR	9,040 EUR
	Average return each year	-16.2%	-2.0%
Moderate scenario***	What you might get back after costs	10,600 EUR	13,740 EUR
	Average return each year	6.0%	6.6%
Favourable scenario****	What you might get back after costs	14,940 EUR	16,460 EUR
	Average return each year	49.4%	10.5%

\* The Stress scenario shows what you might get back in extreme market circumstances.

\*\* The Unfavourable scenario was simulated based on the appropriate benchmark used for an investment between 03-2015 and 03-2020.

\*\*\* The Moderate scenario was simulated based on the appropriate benchmark used for an investment between 03-2018 and 03-2023.

\*\*\*\* The Favourable scenario was simulated based on the appropriate benchmark used for an investment between 05-2019 and 05-2024.

This table shows the money you could get back over the next 5 year(s), under different scenarios, assuming that you invest 10,000.00 EUR.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

## What happens if LGIM Managers (Europe) Limited is unable to pay out?

If LGIM Managers (Europe) Limited defaults, investors in the Fund would not face any financial losses. However, the value of an investment and any income taken from it is not guaranteed and can go down as well as up, you may not get back the amount you originally invested. The fund is not covered by an investor compensation scheme.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for the holding period(s). They include potential early exit penalties. The figures assume you invest 10,000.00 EUR. The figures are estimates and may change in the future.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000.00 is invested.

Investment EUR 10,000.00	If you cash in after 1 year	If you cash in after 5 years
Total costs	40 EUR	280 EUR
Impact on return (RIY) per year (*)	0.4%	0.4%

(\*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 7.0% before costs and 6.6% after costs.

## Composition of costs

The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.
- What the different cost categories mean.

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	0.00% There is no entry fee for this product.	0 EUR
Exit costs	0.00% There is no exit fee for this product.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.25% of the value of your investment per year.	25 EUR
Transaction costs	0.15% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	15 EUR
Incidental costs taken under specific conditions		
Performance fees and carried interest	0.00% There is no performance fee for this product.	0 EUR

## How long should I hold it and can I take my money out early?

An investor can hold their investment for any time period but 5 year(s) is recommended.

The recommended holding period of 5 years has been selected for illustrative purposes for a product with a medium to long-term investment horizon. There is no minimum (or maximum) holding period for the fund and you can redeem your investment any time in accordance with the fund prospectus, however you may receive less than expected if you cash in earlier than the RHP. If you are in any doubt about the suitability of the product to meet your needs, you should seek professional advice. The Shares can be sold by ordinary investors using an intermediary (e.g. a stockbroker) when the markets on which they trade are open. An intermediary is likely to apply a commission to purchases and sales. Please see "What are the costs?" section for details of any exit fees.

The above mentioned period has been defined in accordance to the product characteristics.
